

Scope of Services

Prepared for Kyo's Matcha • June 2026

Prepared by Rome •

01 — Overview

This document outlines the agreed scope of services for the role of Virtual Assistant (Social Media & Customer Support) with Kyo's Matcha, an e-commerce matcha brand sourced from Wazuka, Kyoto, Japan.

The scope defined here reflects what is covered at the current engagement rate of ₱25,000/month (part-time). It has been structured to protect both parties — ensuring clear expectations, sustainable delivery quality, and a professional foundation for long-term growth.

02 — Engagement Details

Client	Kyo's Matcha (@kyosmatcha) Ellis Iyayi
VA	Rome
Role	Virtual Assistant — Social Media & Customer Support
Start Date	June 2026
Engagement	Part-Time Remote
Monthly Rate	₱25,000
Review Date	August 2026 (60-Day Rate Review)
Tools	Notion, Canva, ChatGPT, Meta Suite / Later
Communication	TBD — WhatsApp, Email, or Slack
Response Time	Within 24 hours on business days

03 — What Is Included

The following services are covered within the ₱25,000/month rate.

A. Social Media — Execution & Coordination

Rome will handle the production and coordination side of social media. All content decisions and creative direction will come from the client.

- AI image creation using tools like Canva AI or ChatGPT — based on client-provided brief
- Caption formatting and light editing of client-approved copy
- Resizing and formatting visuals to Instagram and TikTok specs

- Scheduling and publishing posts via agreed scheduling tool
- Organising and repurposing existing AI-generated content into ready-to-post formats
- Maintaining an organised content asset library in Notion or Google Drive
- Coordinating with editors and content creators on delivery deadlines
- Flagging comments or feedback that need client attention

Workflow:

Client provides brief or concept → Rome creates visual and formats caption → Client approves → Rome schedules and posts → Done.

B. Customer Support — B2B and B2C (Standard Inquiries)

Rome will manage the customer-facing inbox for direct consumer inquiries. B2B support is not included at this rate.

- Daily management of the customer email inbox
- Responding to order inquiries, shipping status questions, and delivery concerns
- Handling basic product questions using an approved FAQ and template library
- Managing straightforward refund or replacement requests per client-approved process
- Escalating complex or high-value issues directly to the client
- Maintaining a recurring issue log to flag patterns to the client
- Creating invoice for B2B and updating the team if the payment is done

C. Admin & Operations

- Maintaining and updating the shared project management workspace
- Keeping the weekly task board current so the client has full visibility
- Sending a brief weekly update summary every other Friday
- Organising files, assets, and content in a clean, consistent folder structure

04 — What Is NOT Included

The following are outside the current scope and would require a separate rate discussion:

✓ Included	✗ Not Included
✓ AI image creation from client brief	✗ Content ideation and strategy
✓ Caption formatting and light editing	✗ Content calendar planning
✓ Scheduling and publishing posts	✗ Creative direction and visual style
✓ Repurposing existing content	✗ Scripting or storyboarding Reels
✓ Coordinating with editors/creators	✗ B2B customer support

✓ B2B and B2C email support (standard issues)	✗ Wholesale or partnership inquiries
✓ Issue logging and client escalation	✗ Influencer or UGC campaign management
✓ Notion workspace management	✗ Performance analytics and reporting
✓ Weekly updates and task tracking	✗ Paid ads management

05 — What Rome Needs from the Client

To deliver consistently and on time, the following is required from the client's side:

- Access to all relevant platforms and tools within the first 2 business days
- A content brief or direction provided at least 3 days before the intended publish date
- Approval of content within 24 hours of submission to avoid scheduling delays
- Clear feedback — not just 'change this' but direction on what they want instead
- A single point of contact to avoid conflicting instructions
- Advance notice of any promotions, launches, or campaigns for content planning

06 — 30-Day Execution Plan

Period	Focus	Key Deliverables
Week 1 June 1–7	Learn & Set Up	Kickoff meeting, platform access, Notion/ Asana workspace live, inbox audit, first 5 support templates built, brand voice doc started
Week 2 June 8–14	Build & Systemise	Content calendar populated 2 weeks ahead, support SOPs complete, inbox managed daily, first batch of AI-assisted captions drafted for approval
Week 3 June 15–21	Execute & Refine	Content live on schedule, inbox at zero daily, first check-in with client on what's working, content gaps identified
Week 4 June 22–30	Review & Plan Ahead	Full July content calendar ready, end-of-month summary delivered, rate review conversation initiated

07 — Rate & Scope Roadmap

As trust and scope grow, the following rate progression applies:

Period	Scope	Monthly Rate
June – July 2026	Defined limited scope (Social Media Execution + B2C Support)	₱25,000

August 2026 onward	Full scope including B2B support, content creation, and strategy input	₱40,000 – ₱50,000
--------------------	--	-------------------

The 60-day mark (August 2026) is the agreed checkpoint for reviewing rate and scope based on performance and mutual satisfaction.

08 — Tools & Platforms

- Notion — Workspace, task board, content calendar, SOPs, brand docs
- Canva AI / ChatGPT Image — AI visual creation from client-approved briefs
- Meta Business Suite / Later / Buffer — Scheduling and publishing
- Gmail / Email Client — Customer support inbox management
- Google Drive — Asset storage and file sharing
- WhatsApp / Slack / Email — Day-to-day communication (to be confirmed)

09 — Closing Note

This document is designed to set a clear, honest, and professional foundation for working together. The goal is not to limit what can be achieved — it is to make sure both sides know exactly what is happening, when, and why.

Rome brings experience in social media coordination, e-commerce customer support, AI-assisted content production, and backend operations. With a clear scope and strong communication, the aim is to make Kyo's Matcha's day-to-day smoother, their customers happier, and their content more consistent — starting from day one.
